

Workshop

Implementing a Data
Warehouse with SQL
Server 2014

Welcome!

Thank you for taking our training. We've worked together with our Microsoft Certified Partners for Learning Solutions and Microsoft IT Academies to bring you a world-class learning experience, including:

Microsoft Certified Trainers + Instructors. Your instructor is a premier technical and instructional expert who meets ongoing certification requirements.

Customer Satisfaction Guarantee. Our Certified Partners for Learning Solutions offer a satisfaction guarantee and we hold them accountable for it. At the end of class, please complete an evaluation of today's experience. We value your feedback!

Certification Exam Benefits. After training, consider taking a Microsoft Certification exam. Independent research by IDC concluded that 75% of managers believe certifications are important to team performance*. Ask your instructor about available exam promotions and discounts.

We wish you a great learning experience and ongoing career success!

Introduction

- Name
- Company affiliation
- Title/function
- Job responsibility
- SQL Server experience
- Your expectations for the course

Course Handbook

A succinct **classroom learning guide** that provides **critical technical information** to optimize your **in-class learning experience**.

Lessons

Labs

Module Reviews and Takeaways

Lab Answers

How to Use the Course Material

Training Handbook

- Use the handbook content as the primary resource for reference during the class.
- Use the troubleshooting tips and best practices in the Module Reviews and Takeaways section as on-the-job references.

Facilities

- Class hours
- Building hours
- Parking
- Restrooms
- Meals
- Phones
- Messages
- Smoking
- Recycling

About This Course

- Audience
- Course Prerequisites
- Course Objectives

Course Outline

- Module 1: Introduction to Microsoft SQL Server Analysis Services
- Module 2: Creating Multidimensional Analysis Solutions
- Module 3: Working with Cubes and Dimensions

Adventure Works

Bicycle Manufacturing Company

- In the labs throughout this course, you will work for Adventure Works.
- As you complete the labs, you will implement business intelligence solutions using Analysis Services to allow Adventure Works to analyze existing data to allow better, faster, more informed business decisions to be made.

Setup

Virtual machine	Used as:
NY-SQL-01	<ul style="list-style-type: none"><li data-bbox="691 325 1649 372">• Server used for Module 2 to Module 3

Demonstration: Using Hyper-V

Help the students to familiarize with the Hyper-V environment in which they will work to complete the course's labs.

In this demonstration, you will learn how to:

1. Connect to the Hyper-V Manager.
2. Configure the virtual machine settings by using the Hyper-V Manager.
3. Connect to a virtual machine using the Hyper-V Manager.
4. Start and shut down a virtual machine using the Hyper-V Manager.
